

Agenda

In the Agenda Tab, the admin can create topics, delete topics and edit already existing topics. In the final version, the "current topic" feature is going to be removed. The "Create" and "Edit" Button open up new windows with two text fields, one for the topic name and one for the ID of that topic.

Agenda	Participants	Documents	Requests	Votings
Create Topic	1	Requirements		
Next Topic	2	Implementation		
Delete Topic	3	Review		
Edit Topic				

Participants

In the Participants Tab, one can create and delete participants as well as edit already existing participants. The "Create" and "Edit" Buttons leave the admin with the option to write Name, Location, Function and Group of the participant in their respective text fields. Moreover, the admin can "Kick" a participant, invalidating their password and generate a new password.

Agenda	Participants	Documents	Requests	Votings
<div>Create Participant</div> <div>Edit Participant</div> <div>Delete Participant</div> <div>Kick Participant</div> <div>New Password</div>				

Documents

The admin can upload, edit and delete documents in this tab as well as download them again. Uploading and Editing documents will provide the opportunity to give them a title and change the file attached to them.

Agenda	Participants	Documents	Requests	Votings
<div>Upload Document</div> <div>Edit Document</div> <div>Delete Document</div> <div>Download</div>				
		Progress Report	rev 6	
		Admin Panel Paper Draft	rev 1	

Requests

In this tab, there is the option to change between Requests of Change/Speech as well as the document or the agenda topic they refer to. Also, each of the

dropdown menus has an "all" option that shows all requests without specification in that regard. Requests of Change can be approved or disapproved of, but Requests of Speech cannot.

Agenda	Participants	Documents	Requests	Votings
<div>Requests of Change ▾</div>		<div>Requirements ▾</div>		
<div>View Details</div>		1	Di, 14:42	disappr.
<div>Approve</div>		2	Di, 15:03	
<div>Disapprove</div>				

Votings

In this tab, one can create, edit and delete votings. When editing a voting, one can add an option using a button, change the title and change the name of any vote option, all in a separate window. The time limit can be given in that same separate window, as well. A voting can be started and after that, it can be closed remotely in case the voting time hasn't run out itself. After a voting has been closed, its results can be displayed (e.g. in a pie chart).

Agenda	Participants	Documents	Requests	Votings
