

Progress Report - **Project 23**

Giuliano Rasper **2568405**, Jessica Werner **2563327**,
Stephan Ariesanu **2565385**, Muhammad Kamran **2572847**,
Alexander Dincher **2563446**, Simon Fedick **2563209**

- Week 01 -

Progress

We met each other and the tutor and established communication channels. Also, we met the client and found common ground about the requirements and the prototype. We divided up tasks regarding the prototyping as well as the requirement contract. Furthermore, we agreed on a back end language and a framework for the website to use. The database will be query with some SQL language, the administrative tool will be implemented in Java and the application for the attendees will be prototyped in HTML, CSS, Javascript and using JQuery, Bootstrap.

Problems

The project appears to be quite large in scope and the meeting with the customer was scheduled a little late on Friday.

Achievements

We were able to access GitLab, did the templates for the progress reports and the requirements contract and had our first meeting.

Team Members

Giuliano Rasper Attended the meeting with the tutor and customer, did the protocol during the meeting.

Jessica Werner Attended the meeting with the tutor and customer, did the protocol during the meeting.

Stephan Ariesanu Attended the meeting with the tutor and customer.

Muhammad Kamran Attended the meeting with the tutor and customer today. Added readme file to GitLab. searched for most sophisticated, convenient,

robust framework and programming language and also for web front-end technologies.

Alexander Dincher Attended the meeting with the tutor and customer.

Simon Fedick Attended the meeting with the tutor and customer.
