

Progress Report - **Project 23**

Giuliano Rasper **2568405**, Jessica Werner **2563327**,
Stephan Ariesanu **2565385**, Muhammad Kamran **2572847**,
Alexander Dincher **2563446**, Simon Fedick **2563209**

- Week 03 -

Progress

We refined the contract style document.

Added customer feedback to the requirements.

Further refined the requirements and found unclear points, which got sorted out during meeting with the customer.

We created use cases and send them to the customer.

We designed the login page(as a html document).

We designed the admin panel (as a paper description) and send it to the customer.

Cleared up organizational problems.

Problems

There was some group internal miss-understanding regarding the login functionality

Achievements

Refined requirements.

Team Members

All (together as team)

Attended meetings (3h). Reviewed use-cases (1h). Clarified requirements (2h).

Giuliano Rasper Drafted use cases and proof read use cases and as well as the requirements document (45min). Sketched Backend-Frontend communication consisting of a hierarchy of packages which will be able to be converted from and to JSON. The formalisation will follow as part of the upcoming UML and

sequence diagrams (2h).

Jessica Werner Added Timos feedback for requirement draft (0.5h) and advanced the contract for functional requirements, product use and data storage (3h).

Stephan Ariesanu

Wrote use-cases and send them to the customer (1.5h). Drafted the attendee view (3.5h).

Muhammad Kamran Created Prototype of login and registration page with unique token (Approx. 3hrs)

Alexander Dincher Drafted the attendee view (1.5h). proofread use-cases and proofread requirements document (1h).

Simon Fedick Helped Jessica with the requirement document (0.5h). Finished document style paper prototype of the Admin Panel as a pdf (2.5h).
